

NORTH DAKOTA LAND & WATER CONSERVATION FUND

PROJECT AND GRANT LISTING
1965-2015

Executive Summary

The Land and Water Conservation Fund (LWCF) Act of 1965 assists in preserving, developing, and assuring accessibility of our quality outdoor recreation resources to all citizens of the United States of America. The Fund strengthens the health and vitality of the citizens of the United States by:

1. Providing funds for and authorizing Federal assistance to the States in planning, acquisition, and development of needed land and water areas and facilities.
2. Providing funds for the Federal acquisition and development of certain lands and other areas.

The Land and Water Conservation Fund has played an important role in launching and sustaining park projects in communities around the nation. The LWCF uses federal funds by stretching federal investment through matching dollars, leveraging private investment, spurring economic development and tourism, and providing close-to-home recreational opportunities.

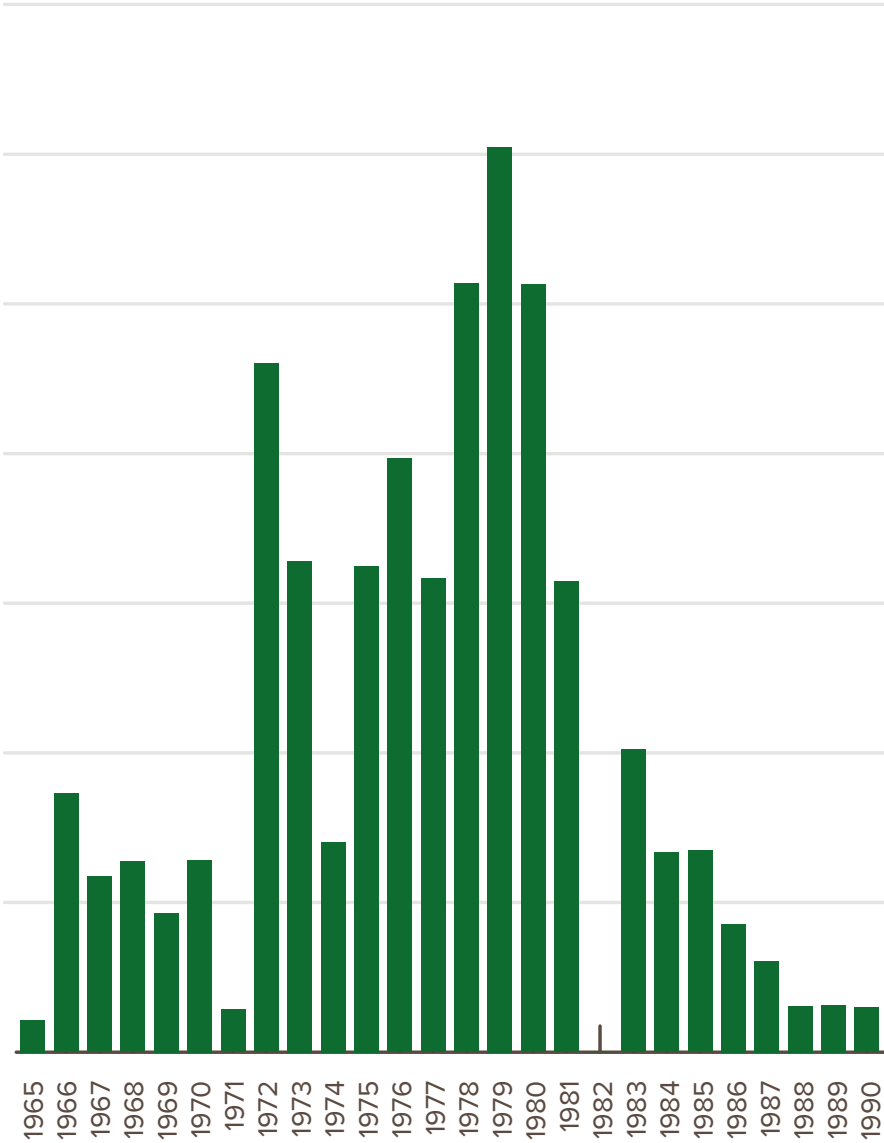

Parks support public health, workforce development, the economy, the environment, education, and community cohesion. They are critical to creating sustainable, livable and vibrant cities. Investments in LWCF support public land conservation and ensure access to the outdoors for all Americans, in rural communities and cities alike. It has created outdoor recreation opportunities in every state, opening up key areas for hunting, fishing, and other recreational access and protecting critical lands in national parks and national wildlife refuges.

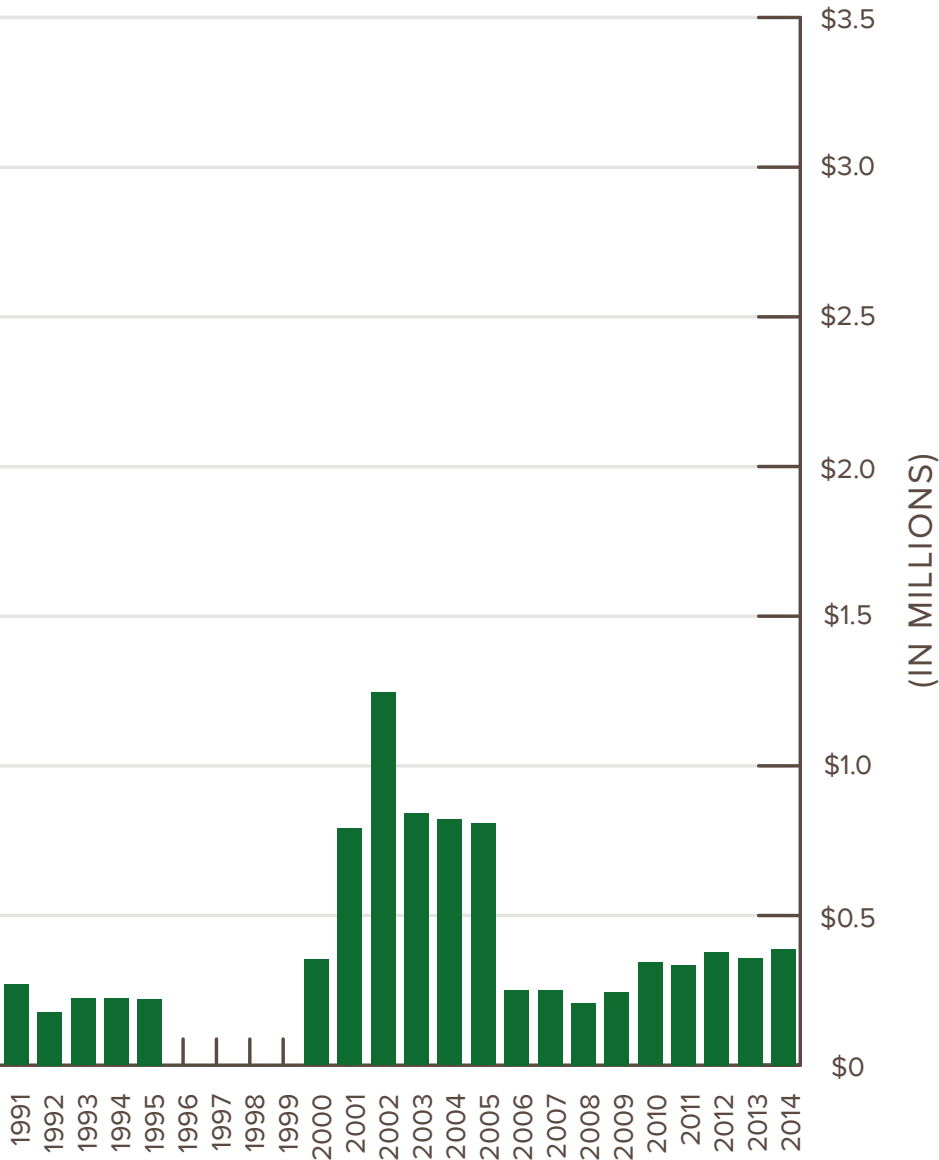

The State and Local Grants Program provides crucial support for state and local park acquisitions in cities, counties and rural towns, as well as recreational facilities and trail corridors.

“The Land & Water Conservation Fund has been extremely helpful to the Devils Lake Park District over the past 40 years, making a large number of our capital projects possible, including all of our park playgrounds. We have also used LWCF funds to add a new activity building, outdoor hockey rink, basketball court and two new community parks. Without funds from LWCF most of these projects would not have been possible.”

Terry Wallace, Superintendent,
Devils Lake Parks & Recreation

North Dakota Land & Water Conservation Fund Apportionments, 1965-2014

LAND & WATER Conservation Fund

Established in 1965
anniversary. Since
and state parks across

, the Land & Water Conservation Fund celebrates its 50th
inception, it has funded 1,190 projects in communities
cross North Dakota, with investments of over \$35,000,000.
